

Patrick Reid

Brio Living Services Board of Trustees welcomes Patrick Reid as the representative of Westminster Presbyterian Church. Patrick has over 25 years of experience as a fiscal leader for healthcare organizations, including as a senior finance executive and consultant. He has served as CEO and CFO for a number of healthcare organizations, and has headed up his own consulting firm, Reid Healthcare Consulting.

Why I serve as a Brio Living Services Board Member: "Working in healthcare for almost 25 years, I witnessed the significant impact caring for an individual has on both that individual and their family. My father was a resident at Porter Hills for over 5 years residing in assisted living, memory care and, finally, hospice. The individuals that cared for my father during that time made such a difference in his life and my family's. We knew he was loved, cared for, and safe. I could not think of a better way of saying "thank you," than to serve as a Board member of Brio Living Services."
