

Hal Gilreath, Chief Information Officer, Brio Living Services

Hal Gilreath joined Brio Living Services in 2023 as its Chief Information Officer. He has responsibility for IT business and program strategies, operations, delivery, vendor relationships, and customer services. As a member of the Brio leadership team, he partners to solve complex clinical, financial, and business issues with cost-effective technologies to improve the lives of residents and team members. His goal is to achieve 100% IT satisfaction with a focus on improving patient care, residential life, and costs.

Hal brings a wealth of expertise leading internal and external organizations, ranging from strategy to client services, enterprise operations, and implementations. He has broad experience leading and managing teams to build and deliver clinical, AI based analytics, senior living, and telehealth programs.

Previously, Hal held executive positions at Sandlot Solutions, Cisco Systems, and Winn-Dixie; and was a healthcare consulting practice leader at TSC, PwC eHealth practice, and First Consulting Group. A former Naval Officer, Hal flew EA-3B's for the U.S. Navy as a mission commander.

Hal holds a B.S. degree in applied science from the U.S. Naval Academy and an M.S. degree in health systems from Georgia Tech University.

Hal resides in Jacksonville, Florida with his wife, who is a successful attorney. He is an internationally ranked one-design sailor and former Military Games gold medalist and intercollegiate All-American. He actively participates in the community in Masters swimming, road races, and triathlons. He holds positions on the Advisory Boards for the U.S. Naval Academy Sailing Program and Jacksonville University.
