

ANNOUNCEMENT

To: West Michigan Residents
From: Steve Fetyko, CEO
RE: Porter Hills Home Health Care
Date: May 27, 2026

I'm writing to share some exciting news: Porter Hills Home Health Care and Atrio Home Care have combined our home healthcare services under **Atrio Home Care**. This formal partnership brings together two high-quality, West Michigan based, not-for-profit, certified home health agencies.

Why a new organization? By joining Atrio, we're combining the strengths of both teams. For those we serve, that means more support behind the scenes and the same compassionate, skilled care you know and trust.

Why these partners? Atrio Home Care is a partnership between Holland Home (Trillium Living), Resthaven, and Brio Living Services. We are like-minded nonprofit organizations with aligned missions and shared values around high-quality care and service. Each organization is financially strong, respected in the communities we serve, and recognized as an innovative leader in senior care. We believe in the power of partnerships and have a proven track record of working successfully with one another and with other health care providers across West Michigan.

Atrio brings together these three trusted senior care organizations to serve older adults across Kent, Ottawa, Allegan, Barry, Ionia, and Montcalm counties. By partnering, we can strengthen resources and expand services while keeping your care steady, personal, and centered on what matters most to you so you can continue to live safely and comfortably at home.

Additionally, this partnership brings access to even more resources, including a strong private duty home care service. Most importantly, care will continue with the same team and the same commitment to excellence you've come to expect, just with a different name. Atrio Home Care can be reached at 616-235-5100.
